IP Video Surveillance Servers & Software

## Desktop IP Camera NVR Servers

Up to 64 IP Cameras

(licenses purchased separately)

### Product Description:

The exacqVision® Desktop IP Camera NVR (Network Video Recorder) Server is a system that provides recording of today's latest IP video surveillance cameras on a space-saving desktop chassis. The powerful, yet easy-to-operate client user interface installs on any standard computer running Windows, Linux or Mac OS X and can connect to multiple exacqVision Hybrid (analog and IP cameras) and IP Camera Servers creating a virtually unlimited amount of cameras and protection. Video from all exacqVision systems can also be accessed with web browsers and mobile devices with access to the internet. Each Desktop IP Camera NVR server supports up to 64 IP cameras.

### Features

- Each server is expandable to up to 64 IP cameras.
- Simple and cost-effective to add additional IP camera licenses.
- Supports latest IP camera technology including multi-megapixel cameras and H.264 compression.
- Supports IP encoders from multiple manufacturers
- Digital PTZ functionality on all cameras in live and recorded mode.
- Intuitive user interface requires little to no training.
- Common client connects to multiple exacqVision servers to create scalable networks.
- Easy-to-use, powerful video and audio export features.
- Multi-monitor client display. Drag and drop cameras between monitors.
- MPEG4, Motion JPEG and H.264 video compression.
- Graphical search display for all cameras and recorded audio.
- Easy to use multi-camera playback and export
- Definable user permissions and privileges.
- Access video with most web browsers and mobile devices with internet access.
- Wide-screen client views.
- SmartSearch
